### **About the Gandy Gallery**

---

After thirteen years spent in Prague, the Gandy Gallery has decided to pursue its adventure in the new location of Bratislava. This choice is motivated by the extraordinary location of this city that is situated at the border of Hungary and Austria, facing the Danube, and lying at the heart of the newly formed Europe. This is where Nadine Gandy has chosen to open her new space, closer to the Balkans, to meet new artists and offer fresh opportunities to curators to conceive exhibition projects. This new space is a laboratory rather than a simple gallery, a meeting point for art and design and creators of multiple forms and projects.
